## Political views and stance on global warming?

Posted by banku111 - 2010/07/27 08:50

---

I have two questions for y'all:

1) What do you think about global warming/AGW? Is it the worst threat mankind has ever faced, or a scam designed to steal your money? Or somewhere in between?

2) What are your political views, if you have any? Conservative, or liberal? Libertarian in one direction?

You can probably guess where I'm going with this. Thanks in advance for your feedback!
